## SCOPE

The Contractor shall provide to the College one modular (prefabricated) building for use as a Child Care Center on a lease basis, month to month, although the College may purchase the unit outright at any time. The College may also choose to terminate the lease anytime after the sixth lease month by giving thirty calendar days' notice of the College's intent to terminate. Upon termination the contractor shall remove the building within thirty calendar days of the date of the termination notice. The modular building shall be installed on the grounds of Lane Community College, 4000 E. 30th Avenue, Eugene, Oregon, by the Contractor but service connections (electrical and plumbing) exterior to the modular structure shall be done by the College. The College will also provide specialty stairs and ramps exterior to the prefabricated unit.

The bid form is prepared such that the bidder shall provide the total selling price of the unit, the monthly lease payment, the penalties for early termination of lease for each of the last thirty months (should the college choose to discontinue the lease before 36 months have elapsed), and the payout for each of the last thirty months (should the College choose to purchase the unit at any time during the course of the lease). Each of these options on the bid form shall be filled in completely or the bid may be ruled non-responsive.
